HORRORS AT ODESSA

Survivor in Letter to Brother Tells of Fearful Atrocities.

Va., Nov. 28.-At a mass meeting of citizens held here at the opera house to protest against the massacre of the Jews in Russia, a letter received by Abraham Morris, a prominent Jewish merchant of the city, from dated Odessa, October 24, and is, in part, as follows:

"I saw them catch an old Jewish man with gray hair and long beard. They robbed him, cut his head from his shoulders, kicked his body into the street and then took his head and placed it on a long pole, while everyone was shouting hooray.
"Right at that time a young man

dressed in the uniform of a high college acholar ran up and was protesting against this barbarism, and four or five Russians jumped on him, knocked him down, and with a great big knife they stabbed him in the stomach and split him in two, ad there was a lot of macaroni lying on the street which came from a grocery store, and while still alive they tore out his entrails and stuffed him full of this macaron and left him there. They were running from one house to another breaking windows.

"Oh, God; what I saw in that barn makes me shudder. I think I can hardly write you. We found in the barn eight children, the oldest of which was no over eight years old, hung on one long rope and left swinging there."

N SPITE of the poor wheat crops the Deering Binders and Mowers have broken all records this season. Our sales on these machines have been remarkable, considering crop conditions, and not one breath of complaint has been heard. They are the best that money and brains can build. Everybody in touch with Fredericksburg knows the history of the Husker and Shredder buisiness last fall. The Deering won the highest praise where others failed. Deering Corn Harvesters gave satisfaction last year, they are better now When you come to town call and see us and let us talk Corn Harvesters and Huskers and Shredders. THE MERIWETHER TRIAL WINTER E

Weather to manifest themselves. Winter Eczema sleeps in the system through the long hot months, and gives no sign of its presence; but at the coming of Winter the trouble asserts itself and it becomes one of the most painful and distressing of all skin diseases. The blood is filled with poisonous acids which seem to be excited by the cold; and as these are thrown off through the pores and glands, the skin cracks and bleeds, the flesh becomes hot and feverish and the itching intense. The natural oils which keep the skin soft and pliant are dried up by the cold, bleak winds, causing it to become hard and dry, giving it that shiny, leathery appearance, characteristic of the disease. The head, face, hands and feet are the usual points of attack, though other parts of the body may be affected. So painful and distressing is the trouble Week.
